

Sample Schedule for BS in Information Technology
(for students without an Associate Degree)

First Semester	Credits	Second Semester	Credits
ENGH 101 Composition	3	Nonlab Natural Science	3
HIST 100 History of Western Civilization	3	Literature	3
IT 104 Introduction to Computing	3	COMM 100 Public Speaking	3
IT 105 IT Architecture Fundamentals	3	IT 106 Introduction to IT Problem Solving Using Computer Programming	3
MATH 108 Introductory Calculus with Business Applications	3	IT 102 Discrete Structures	3
Total Hours	15	Total Hours	15
Third Semester		Fourth Semester	
Natural Science with Lab	4	Arts	3
Social/Behavioral Science	3	IT 207 Applied IT Programming	3
IT 206 Object Oriented Techniques for IT Problem Solving	3	IT 216 Systems Analysis and Design	3
IT 213 Multimedia and Web Design	3	IT 223 Information Security Fundamentals	3
IT 214 Database Fundamentals	3	IT 293 Applied IT: Junior Transition	1
Total Hours	16	STAT 250 Introductory Statistics I	3
		Total Hours	16
Fifth Semester		Sixth Semester	
IT Elective	3	IT Concentration Course	3
ENGH 302 Advanced Composition (Bus/Nat Sci/Tech)	3	IT 300 Modern Telecommunications	3
IT 341 Data Communications and Network Principles	3	IT 304 IT in the Global Economy	3
MBUS 300 Managing Financial Resources	3	IT 343 IT Project Management	3
SYST 469 Human Computer Interaction	3	MBUS 301 Managing People and Organizations	3
Total Hours	15	Total Hours	15
Seventh Semester		Eighth Semester	
IT Concentration Course	3	IT Concentration Course	3
IT Concentration Course	3	IT Concentration Course	3
Global Understanding	3	Elective	3
IT Elective	3	IT 493 Senior Design Project II	4
IT 492 Senior Design Project I	3	Total Hours	13
Total Hours	15

Department of Information Sciences and Technology
Volgenau School of Engineering

Bachelor of Science, Information Technology (2015-2016)

The BS in Information Technology prepares students to apply IT to support business processes. The degree produces graduates with strong problem-solving, writing, and communication skills who successfully compete for technical employment and are prepared for advanced study. The objectives of the Bachelor of Science in Information Technology program relate to the abilities of the graduates several years after graduation. Three to five years after graduating from the program, graduates will have

1. Been employed in a position in which they have successfully used their information technology skills (including: problem solving, analytic, presentation and personal skills) as evidenced by achieving improved organizational objectives
2. Progressed through increasing levels of responsibility in the workplace
3. Demonstrated ethical, social and professional responsibility consistent with professional societies
4. Worked effectively in teams, whether as a participant or as a leader
5. Grown through self-study, continuing education and professional development relevant to their profession

This bachelor's degree program is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

Admission Requirements

Students who meet Mason's general eligibility requirements may apply for admission to the Information Sciences and Technology major. Preference in admission is given to students who have four years of high school mathematics, including pre-calculus.

Degree Requirements

The IT program can be successfully completed in eight fulltime semesters with an average of 15 credits each semester; an example schedule is shown on page 4. It is also possible for students to complete this degree on a part-time basis. The 120-credit degree consists of Mason general education requirements, IT foundation and core courses, and courses required for the chosen IT concentration area. Students must complete requirements for at least one of the currently offered concentrations: Information Security, Networking and Telecommunications, Web Development and Multimedia, Database Technology and Programming, and Health IT. Upper division courses (300-level and higher) in this program are primarily offered at the Prince William campus. Additionally, students must have a C or better in their five concentration courses as well as their Capstone courses.

At least 45 credits of the degree must be at the 300 level or higher, and at least 30 credits must be earned at George Mason University. Students must earn a grade of C or better in any foundation, core, capstone, concentration, or other course that satisfies a prerequisite requirement for a course in the major. No student can take a course more than three times and remain in the major. To graduate with a BS degree in IT, students must have a GPA of 2.75 or better across the major's foundation, core, concentration and capstone courses.

IT Foundation, Core, Capstone, and Concentration Requirements

In addition to the Mason Core requirements (includes humanities, social sciences, mathematics and basic science) the BS in IT also requires foundation, core, concentration and a small set of other required courses. It also requires a seven-credit Applied Senior Capstone project to be completed over a period of two consecutive semesters. A more complete description of these requirements appear on page 2.

This document provides general information about the BS in IT program for information purposes only. The definitive statement of policy and requirements is the University Catalog (<http://catalog.gmu.edu>). In the event of any differences between this sheet and the Catalog, the latter prevails.

Fairfax Campus
 5400 Nguyen Engineering Building
 4400 University Dr, Fairfax VA 22030 MS1G8
 Voice: 703 993 3565; Fax: 703 993 2972

Prince William Campus
 102 Bull Run Hall
 10900 University Blvd, Manassas VA 20110 MS4F5
 Voice: 703 993 3565; Fax: 703 993 8450

1. Foundation Courses:

- IT 104 Introduction to Computing (3)
- IT 105 IT Architecture Fundamentals (3)
- IT 106 Introduction to Problem Solving Using Computer Programming (3)
- IT 206 Object Oriented Techniques for IT Problem Solving (3)
- IT 216 Systems Analysis and Design (3)
- STAT 250 Introductory Statistics I (3)

2. Core Courses:

- IT 207 Applied IT Programming (3)
- IT 213 Multimedia and Web Design (3)
- IT 214 Database Fundamentals (3)
- IT 223 Information Security Fundamentals (3)
- IT 300 Modern Telecommunications (3)
- IT 304 IT in the Global Economy (3)
- IT 341 Data Communications and Networking Principles (3)
- IT 343 IT Project Management (3)
- MBUS 300 Managing Financial Resources (3)
- MBUS 301 Managing People and Organizations (3)
- SYST 469 Human Computer Interaction (3)

Information Security (INFS)

- IT 353 Information Warfare and Defense
- IT 357 Computer Crime, Forensics, and Auditing
- IT 366 Network Security I
- IT 369 Data and Application Security
- IT 429 Security Accreditation of Information Systems
- IT 462 Information Security Principles
- IT 466 Network Security II
- IT 467 Network Defense

Networking and Telecommunications (NTEL)

- IT 342 OS Fundamentals
- IT 366 Network Security I
- IT 441 Network Servers and Infrastructures
- IT 445 Networking Principles II
- IT 455 Introduction to Wireless Communications and Networking
- IT 465 Peer-to-Peer Systems and Overlay Networks
- IT 484 Voice Communications Technologies
- IT 488 Fundamentals of Satellite Communications

Information Technology Entrepreneurship (ITE)

- IT 315 Mobile Development
- IT 390 Rapid Development of Scalable Applications
- IT 490 Application Maintenance and Spiral Development
- IT 496 Decision Making in IT Ventures
- IT 495 Turning Ideas into Successful Companies
- MBUS 304 Entrepreneurship: Starting and Managing a New Enterprise

Graduate Study

Students who plan to pursue advanced degrees should take Math 125 in place of Math 112, as well as IT 306 and IT 342 as concentration requirements.

Accelerated Masters Program

Mason offers students the ability to complete both BS and MS degrees in a shorter time through an accelerated Masters program. Choosing to pursue an accelerated MS may affect your choice of courses in the BS program. See <https://ait.gmu.edu/> for more information.

3. Two Semester Capstone Sequence:

- IT 492 Senior Design Project I (3)
- IT 493 Senior Design Project II (4)

4. Other Requirements

- IT 293 Applied IT: Junior Transition (1)
- COMM 100 Public Speaking (3)
- Natural Science 7 credits of natural science as required by Gen Ed
- MATH 108 Introductory Calculus with Business Applications (3)
- IT102 Discrete Structures (3)

5. Concentration Area

Students choose one of six concentrations from the list below. The selection of courses offered under a concentration may vary over time. Students should discuss selection with their advisor.

Web Development and Multimedia (WDM)

- IT 315 Mobile Development
- IT 331 Web I: Web Development
- IT 332 Web Site Administration
- IT 335 Web Development Using Content Management Systems
- IT 390 Rapid Development of Scalable Applications
- IT 413 Digital Media Editing
- IT 415 Information Visualization
- IT 431 Web II: Advance Web Development
- IT 436 Agile Web Development

Database Technology and Programming (DTP)

- IT 306 Program Design and Data Structures
- IT 308 Event-Driven Programming
- IT 314 Database Management
- IT 315 Mobile Development
- IT 322 Healthcare Data Challenges
- IT 344 Information Storage and Management Technologies
- IT 390 Rapid Development of Scalable Applications
- IT 410 Java Web Programming
- IT 414 Database Administration
- IT 490 Application Maintenance and Spiral Development

Health IT (HIT)

- IT 322 Healthcare Data Challenges
- IT 324 Electronic Health Records
- IT 390 Rapid Development of Scalable Applications
- HAP 360 Introduction to Health Information Systems
- STAT 362 Introduction to Computer Statistical Packages

Mason Core Requirements

- Fine Arts (3)
- Global Understanding (3)
- Literature (3)
- Social and Behavioral Science (3)
- Western Civilization: HIST 100 (3)
- Written Communication: ENGH 100 or ENGH 101 (3)
- ENGH 302- Business or Natural Sciences/Technology (3)

Natural Science: (satisfied by completion of major requirements)

Information Technology: (satisfied by completion of major requirements)

Synthesis: (satisfied by completion of capstone courses)

Department & Course #	Completed	Needed

Oral Communication: (satisfied by completion of major requirements)

Quantitative Reasoning: (satisfied by completion of major requirements)

Note: Information on the Mason Core requirements can be found at <http://provost.gmu.edu/gened/approved-course-listing/>. Degree requirements may not include credits earned in activity courses in any department.

Foundation Courses

- IT 104 Introduction to Computing
- IT 105 IT Architecture Fundamentals
- IT 106 Introduction to IT Problem Solving Using Computer Programming (3)
- IT 206 Object Oriented Techniques for IT Problem Solving (3)
- IT 216 Systems Analysis and Design (3)
- STAT 250 Introductory Statistics I (3)

Core Courses

- IT 207 Applied IT Programming (3)
- IT 213 Multimedia and Web Design (3)
- IT 214 Database Fundamentals (3)
- IT 223 Information Security Fundamentals (3)
- IT 300 Modern Telecommunications (3)
- IT 304 IT in the Global Economy (3)
- IT 341 Data Communications and Networking Principles (3)
- IT 343 IT Project Management (3)
- MBUS 300 Managing Financial Resources (3)
- MBUS 301 Managing People and Organizations (3)
- SYST 469 Human Computer Interaction (3)

Capstone Courses

- IT 492 Senior Design Project I (3)
- IT 493 Senior Design Project II (4)

Other Required Courses

- IT 293 Applied IT: Junior Transition (1)
- COMM 100 Public Speaking (3)
- Natural Science with Lab (4)
- Natural Science without Lab (3)
- MATH 108 Intro Calculus w/Business Applications (3) or
° MATH 113 - Analytic Geometry and Calculus (4)
- IT 102 Discrete Structures (3)

Concentration Area (15) see <http://ait.gmu.edu/> for details

Choose from either: **Information Security, Networking and Telecommunications, Web Development and Multimedia, Database Technology and Programming, Health IT, or Information Technology Entrepreneurship.**
